

Summary of your stay in Norway

Feedback from international students

December 3, 2018

Good elements I experienced from my stay

Kind and attentive teachers

Especially the kindness of everyone, in the university and anywhere.

Malin as Erasmus buddy

Especially mention the attention and time that Malin (our buddy) has been with us.

International Office (Elise) and Hong were very friendly and ready to help if any problematic occurs.

And also communication was really easy and solution oriented with the other teachers

Fredrikstad is close to Sweden too, so it is also to visit this country too

Connection of Internet was good in all around university. Opening doors with student card and printing by student card were nice occasions

Good studies programs

All services you need

Good organization for putting the Erasmus close to each other

Learning from Norwegian culture

Almost all Norwegian students speak English fluently

Not so good elements so needs to improve

Norway is too expensive
Cafeteria was very expensive

There should be Norwegian lessons in Fredrikstad campus too
On the part of the international relations they could have had more attention when they have had emails and I have not received an answer.

Some confusing schedules of subjects
Difficult or null access to exam schedule
Everything to computerized

Library is not open all the time
Noise in the library
